

MAD SCIENCE

# Science Nights

## Make and Take Booths

Create your very own science projects!

**Slippery Science** - Discover the ooey-goopy origins of plastic. Make your own slippery slime.

**Eye Spy** - Make a periscope that allows you to see around corners and over crowds.

**Mighty Magnets** - Build your own floating magnet set that shows how poles attract and repel.

## Science Stations

Hands-on scientific discovery!

**Optical Illusions** - Baffle your mind with fascinating optical illusions. Learn about reflection, lenses, and how light travels.

**Magnetism** - Discover the wonders of magnetism. Use magnets to defy gravity and levitate objects.

**Dry Ice** - Explore the states of matter and watch in amazement as we demonstrate the extraordinary properties of dry ice.

## Mad Science Show

Spectacular 45 minute show that captivates and educates students.
